Subject: Adoption of TSDSI Transposed 3GPP Release-15 & Release-16 standard into National Standards

TSDSI, as a partner of 3GPP had submitted 3GPP Release 15 and Release 16 standard specifications [1], totaling 114 documents in numbers of 3GPP SRIT Release-15, 58 documents in numbers of 3GPP RIT Release-15 and 120 documents in numbers of 3GPP SRIT Release-16, 64 documents in numbers of 3GPP RIT Release-16 to TEC for adoption as national standards.

These specifications have been processed for adoption as per the "Standardization Guide – A policy document for adoption of the domestic/international standards into national standards" notified as per O.M. No. 2-1/2018/SD/TSDSI/TEC/5 dated 8th May 2020. These standards were initially circulated to all the stakeholders for the public consultation. Then, a Consultative Committee (CC) on 3GPP Release-15 & Release-16 standard under chairmanship of DDG (MT), TEC and other members from Industry, academia, government, R&D organizations, SDOs etc. have examined the specifications w.r.t. public comments and inclusion of national requirements. Subsequently, Telecom Standards Advisory Committee (TSAC), has recommended adoption of 3GPP Release-15 & Release-16 standard without any changes ("identical adoption").

Based on recommendation of TSAC Committee i.e. Apex Committee, TEC, DoT has approved adoption of these TSDSI transposed 3GPP Release-15 & Release-16 standard without any changes ("identical adoption").
