

Subject: Setting up of 5G Core testing lab at TEC, Janpath, New Delhi

TEC intends to evaluate techno commercial proposal for setting up of 5G Core testing Lab. The Lab should be capable of testing the following:

- a) Wireless 5G core, IMS, end to end services, NFV, Diameter;
- b) Conformance and functional test;
- c) Negative test;
- d) Interoperability test; and
- e) Capacity and performance test.

Along with the above, the lab should also capable of testing as per TEC ER of 5G Core.

Accordingly, intended vendors may provide techno commercial proposal (budgetary quotes) along with warranty of hardware and software licenses of two years and 5 years AMC after warranty.

The intended proposal is to access the precise valuation/requirement of hardware, software licenses only.

The information may be email to TEC on Jyoti.sengar@gov.in latest by 30.09.2022.
