

ID.No. 5-3/2021-TC/TEC

Date : 29.06.2021

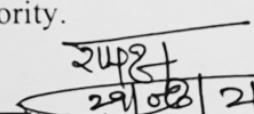

**Office Memorandum**

**Subject:** Exemption for Technical Parameters i.e. Protocol Test for GPON/XGPON/XGSPON interface - Reg.

Considering the non-availability of the testing capability among the TEC designated/NABL accredited labs in India, a generic exemption is hereby granted for PON parameters up to 31.12.2021 or till further orders, whichever is earlier, as given below :-

| S. No. | Reference from PON Family of Broadband Equipment ER (ER No. : TEC14761911) |                      |                   |
|--------|----------------------------------------------------------------------------|----------------------|-------------------|
|        | Parameter Name                                                             | Product Variant Name | ER Clause No.     |
| 1.     | Protocol Test for GPON Int                                                 | PON ONT              | Clause No. 1.3.6  |
|        |                                                                            | PON ONU              | Clause No. 2.6.6  |
|        |                                                                            | PON OLT              | Clause No. 3.3.6  |
| 2.     | Protocol Test for XGPON Int                                                | PON ONT              | Clause No. 1.6.6  |
|        |                                                                            | PON ONU              | Clause No. 2.10.6 |
|        |                                                                            | PON OLT              | Clause No. 3.7.6  |
| 3.     | Protocol Test for XGSPON Int                                               | PON ONT              | Clause No. 1.7.6  |
|        |                                                                            | PON ONU              | Clause No. 2.11.6 |
|        |                                                                            | PON OLT              | Clause No. 3.8.6  |

This letter may be uploaded against the respective parameter of ER as mentioned above, on MTCTE portal. This issues with the approval of competent authority.
