File No- 2-2/2024-QT/TEC

Dated: 12.03.2024

Subject: Inviting nominations for Manufacturer Forum (MF) (FY 2024-25) for the preparation of standards for telecom equipment dealt by Quantum Technology (QT) division, TEC- regarding

Dear Sir/Madam,

TEC is a technical body under the Department of Telecom, Government of India, responsible for preparation of specification of standards with regard to Telecom network equipment, services and interoperability.

2. Manufacturers' Forum is a group of technical representatives of manufacturers, suppliers, representatives of a network element or a group of network elements, and concerned members of associations.
3. The forum is constituted and modified from time to time by the concerned division of TEC. MF is responsible for furnishing relevant technical information for the concerned equipment during preparation of standards/specifications. The procedure and guidelines for formulation of TEC standards/documents have been described in the TEC document (TEC 05009:2020), hereby enclosed for reference please.
4. Being a technical organization, it is required to identify appropriate experts from different stakeholders for nomination to Manufacturer Forum. For the period FY 2024-25, **Quantum Technology (QT)** division of TEC is in the process to constitute the MF for the preparation of standards for the QT products. The **Quantum Technology (QT)** division formulates standards related to **Quantum Technology** devices/products such as QKD, QRNG, PQC, SPD, etc.
5. The standards prepared by TEC are available free of cost on TEC Website at <https://www.tec.gov.in>.
6. Accordingly, it is requested to forward suitable nomination from your organization/ company/startup/ institute for inclusion as a member of Manufacturer Forum of **Quantum Technology (QT)** Division, TEC, at adit2.tec-dot@gov.in, adgqt.tec-dot@gov.in and dirqt.tec-dot@gov.in latest by **21st March 2024**. The format for providing nomination is available in Annexure-I.

Enclosure: TEC document (TEC 05009:2020) on "Procedure and guidelines for formulation of TEC standards /documents."
